Introducing Penguin Readers

Penguin Readers are published across eight levels, from Pre-A1 (Starter) to B2 (Level 7), with each corresponding to the Common European Framework of Reference (CEFR) and featuring activity types aligned to international exams including Flyers, PET, KET, FCE, CAE, CPE and TOEFL.

The language used in each reader is strictly controlled, with the grammar syllabus and permitted vocabulary correlating to the CEFR. A small number of new words are introduced in each story and are all explained in a glossary at the back of the book.

Penguin Readers structure and content

Each Penguin Reader begins with a short introduction and some 'before-reading questions' to help orientate the students towards the subject matter of the story or text.

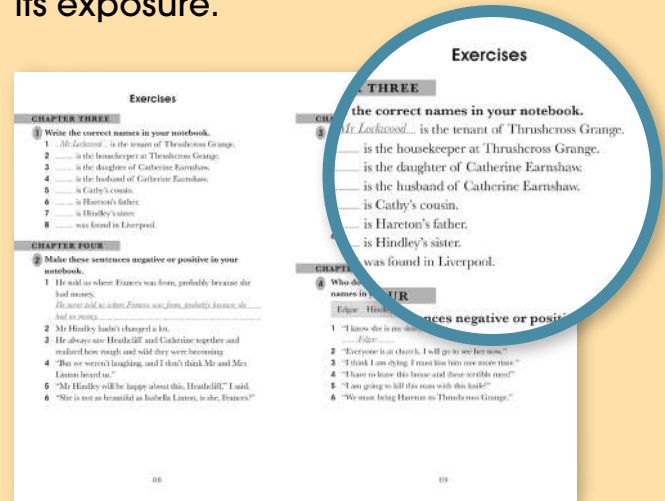

Comprehension questions directly follow the text and test the students' understanding of each chapter. When students have finished reading the entire book, there are a set of questions to test their understanding of the text as a whole.

At the end of the book, students are given extension work in the form of written projects and in-depth essay questions.

Any difficult vocabulary is explained in a picture dictionary (at lower levels) and in a glossary at the back. The new vocabulary is recycled in the text where possible to increase its exposure.

An 'exercises' section includes grammar-, vocabulary- or comprehension-based questions dedicated to most chapters.
